

DISPLAY PANELS AND ROAD SIGNS ASSEMBLY SOLUTIONS

BUILDING TRUST

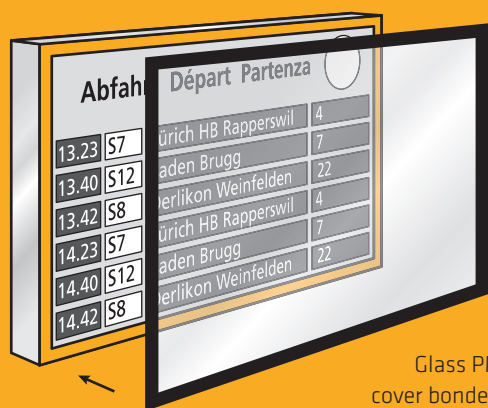

ADHESIVE FOR DISPLAY PANEL AND ROAD SIGN PRODUCTION

Sika offers a wide range of adhesive and sealant solutions, suitable for plastics and metal bonding as well as satisfying the most demanding market requirements. Manufacturers of road signs and display panels for airports, railway stations and highways use Sika solutions to bond and seal metals, glass, PMMA and PC to metal structures, ensuring reliability, durability and aesthetic appeal.

ADVANTAGES

- Modern look of flat glass or metal surfaces, without visible clamps or screws
- Easy application with 1-component adhesives or 2-component cartridge solutions
- Safe and long-term durable joints even under harsh environmental conditions
- Simplified assembly with Sikaflex® technology instead of mechanical fixtures

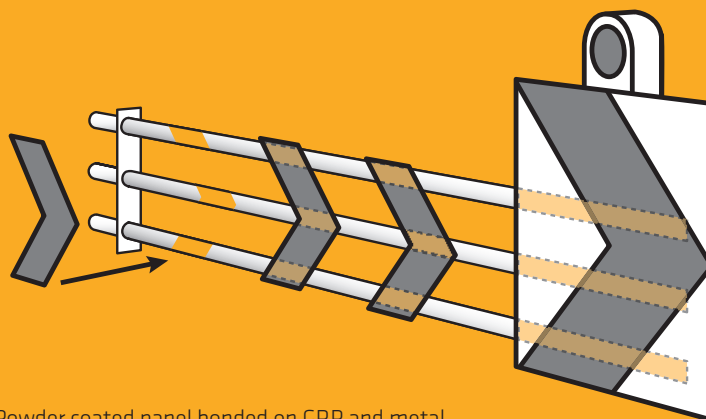

Glass PMMA or PC cover bonded on metal with **Sikaflex®-223**.

Metal to metal with **Sikaflex®-552 AT** or **Sikaflex®-953**.

PRODUCT FEATURES

- Structural adhesives and sealants
- Weather-resistant: Sikaflex®-552 AT and Sikaflex®-953
- UV-resistant: Sikasil® AS-70 and Sikasil®-AS785
- Suitable for a wide range of substrates
- Optimized for large and small scale industrial applications
- Gap filling and short handling time with the 2-component technology of Sikaflex®-953 and Sikasil® AS-785

Powder coated panel bonded on GRP and metal posts with **Sikaflex®-552 AT**. For faster curing, **Sikaflex®-953** can be used. For UV-resistant or primer-free applications, **Sikasil® AS-70** or the fast cure **Sikasil® AS-785** are advised.
