ADHESIVE SOLUTIONS FOR INDUSTRIAL COMPRESSORS PRODUCTION

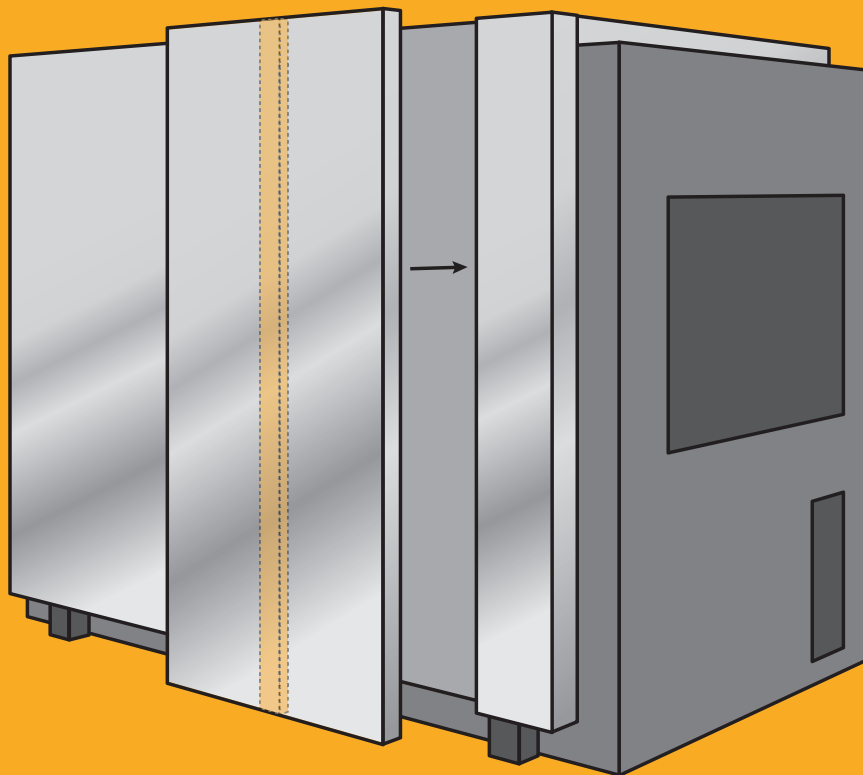

When a structural or generic bond is needed, Sika offers a wide range of adhesives to meet the most demanding market requirements. Manufacturers of industrial compressors rely on Sika solutions to bond and seal metal bodies and to secure stiffeners on thin metal sheets, while providing a structural, weatherproof and vibration damping joint that can be over-painted.

ADVANTAGES

- Safe and long-term durable joints
- Simplified assembly with Sikaflex® technology instead of mechanical fixtures
- Material savings due to the potential use of thinner metal sheets
- No corrosion caused by screw holes and rivets
- Damping of vibrations and noise

PRODUCT FEATURES

- Structural bond
- Suitable for a wide range of substrates
- Optimized both for large and small scale industrial applications
- Gap filling and short handling time with the 2-component technology of Sikaflex®-953

Stiffeners and metal frame structural bonding:
Sikaflex®-552 AT. For faster curing, **Sikaflex®-953** can be used.
